Profile

Video editor and motion designer with 1.5 years of experience and 50+ completed projects. Creates short-form videos, brand content, motion graphics and cinematic edits using Adobe Premiere Pro and After Effects. Combines storytelling, pacing, color grading and sound design to take creative briefs through revisions to final delivery.

Relevant Experience

Freelance Video Editor & Motion Designer *Independent projects*

- Create reels, branded videos and motion graphics, combining footage, animated typography, transitions and sound to support each project's message.
- Work from client briefs and references, incorporate feedback, and prepare finished edits and source-file handoffs for social and digital use.
- Develop personal showreel and portfolio work covering commercial editing, logo reveals, animated intros and event videos.

Video Editing Intern *Transcurators | NIIT client / Growth team*

- Edited video content for the NIIT client, supporting the growth team's ongoing creative requirements.
- Managed daily video deliveries, communicated progress and incorporated client revisions within production timelines.

Selected Work

Commercial & Brand Editing *Premiere Pro*

- Portfolio includes a 3:29 video sales letter (VSL), a 22-second event video and a personal showreel demonstrating editing and visual storytelling.

Motion Graphics & Identity Animation *After Effects*

- Created Apex Intro, logo reveals and animation studies; additional work includes cinematic poster reveals, particle effects, lens flares and animated text.

Monster VFX Showdown *After Effects & Premiere Pro*

- Created a Stranger Things-inspired sky-monster scene, integrating creature VFX with atmospheric visuals and complementary sound design.

Skills & Tools

Editing: Short-form content, reels, brand videos, narrative pacing, transitions, color grading.
Motion & Audio: Motion graphics, keyframe animation, kinetic typography, logo animation, VFX, sound design.
Software: Adobe Premiere Pro, Adobe After Effects, Canva, CapCut, Figma.
Workflow: Creative briefs, visual research, client revisions, delivery coordination, AI-assisted ideation.
